
Planning Performance Measures Workgroup

Joe Herring, FEMA HQ

2001 CSEPP NATIONAL CONFERENCE

Planning Performance Measures

- We want to help communities have complete and coordinated plans
 - Ties into GPRA reporting on CP-1
 - Performance Measures working group has developed a framework and measurement tool
 - Management leads:
 - SBCCOM: Dennis Legel
 - FEMA HQ: Joe Herring

Planning Performance Measurement

- Will be briefed by the panel
- Trial implementation in this quarter; fully implemented in Q1 of FY02
- We are at the forefront of performance measurement for CSEPP

CP-1 Measurement: HQ Policy Guidance for the Group

- Keep it simple, especially in the first year
- Phase in more implementation in later years
- Integrate with the CAR if workable
- First emphasis is on giving sites a tool to help them improve; GPRA reporting is secondary
- Have it ready for Q4 of FY01.

Non-Surety Definition

- Tasking: Define criteria for off-post notification of non-surety” events
- All sites surveyed
- Information being compiled into white paper
- Example of sharing practices

Regional Structured Interview

- Tasking: Structured Interview to get a “snapshot” or “baseline” on CSEPP Plan status
- Self-generated tasking
- Interviews with FEMA Regions
- Results assembled and summarized without “naming names”
- Example of sharing practices

Summary of Planning Programs

- Tasking: Analyze differences and similarities of the “Synchronization Matrix” and the “System Analysis” processes
- Self-generated tasking
- Evolved to be a summary of each program in similar format; Planning Wizard added
- Results to be posted on planners website “Resources” link
